FLORIDA LABOR MARKET TRENDS

FLORIDA DEPARTMENT OF LABOR AND EMPLOYMENT SECURITY • BUREAU OF LABOR MARKET INFORMATION

- Highlights:**
- Nonagricultural employment in Florida grew by 3.8 percent or 195,400 new jobs over the year to reach 5,392,900 in December. Despite a significant slowdown in Florida's job growth rate, it still remained as the fastest growing when compared to the nation's eleven most populous states.
 - Services and trade were Florida's two largest industries accounting for 7 of every 10 new jobs in the state. Services was Florida's fastest growing sector (5.2 percent) over the year and the sector gaining the highest number of new jobs (+75,200).
 - Construction remained as the only major industrial sector to lose jobs. The loss was -1.4 percent or -5,000 jobs since December a year ago. Overbuilding, investors hoping for lower interest rates, and a lack of pent-up demand continued to plague this industry.
 - Florida's unemployment rate stood at 5.8 percent representing 362,000 jobless out of a labor force of 6,262,000 in December. This rate continued to be above the national rate of 5.3 percent. Florida's job growth has slowed more than population growth, making it more difficult for new and reentrants in the labor force to be absorbed into employment.

NONAGRICULTURAL EMPLOYMENT GROWTH RATES
ELEVEN MOST POPULOUS STATES, DECEMBER 1988-DECEMBER 1989

* = Less than one-tenth of one percent

(1) - These series do not have a consistent seasonal pattern and consequently do not pass criteria for seasonal adjustment. Total nonagricultural employment is the sum of all major industries and is not adjusted. Durables and nondurables in manufacturing and wholesale and retail in trade may not add to total due to lack of adjustment to durables and wholesale.
